

2022 TSJCL State Convention Academic Results for Virtual Participants

Please note (these were made known to all sponsors and teachers before convention):

1. The TSJCL State Co-Chairs can't guarantee the integrity of the tests because these were taken by students who attended the convention virtually. The state chairs intended for this option to be offered only to those who students who were registered to participate but started to exhibit COVID symptoms the week of convention (April 4-7, 2022) and, therefore, could not attend in person.
2. The results on these academic tests should NOT be used for any qualification purposes by schools because TSJCL can't guarantee the integrity of the tests.
3. The scores on these tests are NOT part of the sets of the actual academic test results from the 2022 state competition because the scores won't be comparable. Therefore, there are no placements listed. Only the names of students, the school, the level of the students, the scores they earned on the tests, and the numbers of total questions are listed here.
